**EATON IS
IN TOWN!**

**TRANSFORMER
PROTECTION
PART II**

KNOWLEDGE = POWER

RESERVATIONS ARE REQUIRED – YOU MUST REGISTER ONLINE AT BFCIAEI.ORG

Tom is back for Part II! The Benjamin Franklin Chapter is honored to present Thomas Domitrovich, Director, Codes and Standards, Eaton, as our featured speaker this month. Our topic is Transformer Protection, Part II. This comprehensive session will review the proper selection of overcurrent protective devices and primary and secondary conductors to meet the NEC requirements and design considerations. We will also explore how to address the electrical hazard of incident energy on the secondary of the transformer, a particularly dangerous location in a power distribution system. Tom will pick up where he left off in March. This is not to be missed!

Thomas A. Domitrovich is a licensed Professional Engineer (PE) in Pennsylvania and a LEED Associate Professional with Eaton's electrical sector. Mr. Domitrovich has global codes and standards responsibilities for the electrical and industrial sectors at Eaton, assisting customers in the proper application of Eaton solutions to manufacturers' instructions and codes & standards. Thomas sits on NEC Code Making Panels 2 and 10, NFPA 110/111, NFPA 78/1078, NFPA 73, & NFPA 790/791. Mr. Domitrovich is very active with IAEI, too. He is the Western Section Education Chair, the Treasurer of the West Virginia Chapter, and sits on the International Board of Directors. He is also the host of the IAEI NEWS LIVE podcast! Our sponsor Billows will provide an industry update from Panasonic. All attendees who register will receive a CEU certificate via email.

ARE YOU AN ELECTRICAL PROFESSIONAL, 30 YEARS OF AGE OR YOUNGER, AND NEED TO BUILD YOUR NETWORK AND KNOWLEDGE? JOIN US AT ANY MEETING AND PAY A DISCOUNTED RATE OF \$30.00 FOR YOUR MEAL AND EDUCATION!
